Patient Comfort – We care your patients !

Patient comfort is a combination of multiple features, including a patient-friendly design and lightweight coils.

Accommodates oversize patients with a 70 cm Open Bore design and ultra-short 145 cm cover-to-cover system design.

- ✓ Potentially fewer refused exams and more referrals
- ✓ Sharper images due to less anxiety-related movement
- ✓ Preferred design by claustrophobic patients
- ✓ Helps reduce sedation rates, fear, and anxiety
- ✓ Offers more head-out exams
- ✓ Covers a full patient range: pediatrics, obese, critically ill, kyphotic, and those with respiratory problems, pain and mobility issues, and claustrophobia or anxiety

Illumination Moodlight

- ✓ LED light panel can be set by patient
- ✓ Choose colors by patient
